

Missouri Department of Elementary and Secondary Education Special Education District Profile

Parkway C-2 (096-095)

As required by the Individuals with Disabilities Education Improvement Act of 2004, the Missouri State Performance Plan (SPP) is a six-year plan that includes targets for student performance indicators and improvement activities designed to enable districts* and the state to meet those targets. Missouri is also required to publicly report on the performance of each district in relation to the targets established in the SPP. The State Performance Plan can be found online at:
<http://www.dese.mo.gov/divspeced/PDF/PartB-SPPMissouri.pdf>.

The purpose of this profile is to:

- a. Provide information to the public about the performance of district on the SPP Indicators
- b. Address other outcome measures for students receiving special education services.

Page 1 of this profile summarizes whether the district met or did not meet the targets for each performance indicator. The remaining pages provide additional data for the SPP indicators (noted as "SPP #").

Students with disabilities are those students who qualify for special education services and who have an Individualized Education Program (IEP). Data sources are provided for each table included in this profile, however most of the data are reported by the district directly to DESE.

*The word "district" includes responsible public agencies such as local school districts, charter schools and state operated programs.

District Adequate Yearly Progress (AYP) for Students with Disabilities (SPP 3a)

Student assessment data is evaluated for AYP purposes for a specific subgroups of students, one of which is students with disabilities.
For district AYP status, refer to School Data and Statistics website: <http://www.dese.mo.gov/schooldata/>

Initial Evaluation Timelines (SPP 11)

Districts are required to complete initial evaluations and determine eligibility within 60 days from referral to special education.
The following table reflects the percent of children who, with parental consent, were determined to be eligible for special education services within 60 days

Reporting Year	Number evaluated	Number within acceptable timelines	Percent within acceptable timelines*	State 2005-2006

Parent Survey Data (SPP 8)

Parents are asked about their level of involvement with their children's education on the MSIP Parent Survey. The following table indicates the percent of parents with a child receiving special education services who reported that schools encouraged parent involvement as a means of improving services and results for children with disabilities

For students ages 14-21 the following exit categories are combined for the number of dropouts: 03-Received a Certificate, 04-Reached Max Age, 07-Moved, Not known to continue and 08-Dropped out

NA - Elementary districts do not report their high school students, therefore will not have a graduation or dropout rate.

*Totals exclude data reported by Dept of Corrections and Division of Youth Services

Secondary Transition Plans (SPP 13)

IEPs must include coordinated, measurable, annual IEP goals and transition services that will reasonably enable the student to meet their post-secondary goals. The following data show the percent of youth age 16 and above with a transition plan that meets these requirements as determined by file review of a sample of IEPs
